

LIONEL
CORPORATION
1996

Build your dream with Lionel.

Quality that knows no rival. Value that endures for generations. And fun that lasts a lifetime.

Introducing the 1996 electric trains of The Lionel Corporation.

Make your dreams come true with Lionel. Because no matter what your interest in model trains, Lionel has the solution. Explore Lionel and discover our incredible range. Only Lionel covers the basics *and* the best with depth, quality, and realism.

It's all here. Tough, advanced locomotives. Colorful freight and passenger cars. Entertaining animated accessories. The widest selection of track ever. The best power and control you can buy. And *every* piece built with Lionel's commitment to excellence.

What does it take to be a Lionel?

DIE-CAST ARTISTRY, crafted by Lionel throughout our ninety-six year history. Huge blocks of tooling steel that create the most sophisticated toys in the world.

A RUGGED BUILD, unsurpassed in toy-making. Die-cast metal, stamped steel, and tough, modern plastics—

the secret to a Lionel's long life.

POWERFUL DRIVES, like the magnificent Pullmor motors we build to exacting standards. Motors that teach young minds science. Motors that run with unparalleled strength. Motors that last a lifetime.

TODAY'S TECHNOLOGY, like TrainMaster Command and Railsounds. No other electric train gives you as much realism and control as a Lionel. Experience the sensation of being in a real locomotive. It's yours with Lionel.

SUPERIOR QUALITY, worthy of The Lionel Corporation name. Our pledge: to build the best electric trains ever made. Trains that will give you, your children, and *their* children years of enjoyment.

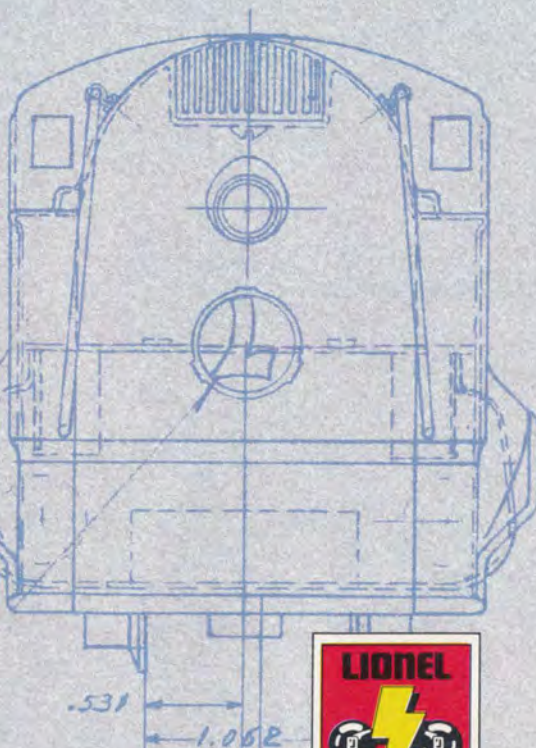

Because that's what Lionel is all about. More than just a sophisticated plaything, Lionel is a commitment—a bond—between company and customer. We build trains to last a lifetime. And we've been doing it for ninety-six years.

The future of model railroading has arrived. The Lionel Corporation for 1996.

Pullmor

precision locomotive motors

Motors built to exacting standards. Motors that last a lifetime. Exclusively from Lionel.

More speed, more climb, more pull. And now, more than ever before. Exclusively from Lionel.

O-27 GAUGE

Introducing the Lionel Lines O-27 set.

Built to the rugged standards of historic Lionels, the O-27 Lionel Lines set is the perfect "first" train. It includes *everything* you need to get running. And like all Lionels, the Lionel Lines set represents quality, realism, and enduring value.

The set—number 1113WS—is headed up by the X1110 steam locomotive. It rides on the rugged Lionel four-wheel drive for years of dependable service.

The die-cast boiler is tough. Clean, safe smoke pours from the stack. And the authentic air whistle in the tender says *fun* with every press of the button.

And look at this freight consist! The stake-side 6424 flatcar is ready for work. The 9700 Lionel Corporation boxcar carries valuable components to our factory. And the lighted 6357 Southern Pacific caboose is the perfect

It's fast. It's colorful. And it's advanced. Striking across the American plains—it's the Lionel Rock Island® Rocket!

For quality Lionel O-27 action, fire up the Rock Island Rocket. You get the Command-equipped Lionel Alco FA2 with Pullmor

motor, Magne-Traction, TrainMaster Electro-couplers, Railsounds, and die-cast frame and trucks. It's the best O-27 diesel around.

The Alco pulls the Rocket passenger

set: combination car, coach, and streamlined observation—all with die-cast trucks and magnetic couplers. The Rocket even comes with the all-new Scout CAB. Plus, set 1464RS is an officially licensed product of the Rock Island Railroad! Look for the Rocket in 1997.

Rock Island and the Rock Island herald are registered trademarks of Maytag Corporation and are used under license.

\$199.95

Return of the Super Chief.

Timeless. Classic.

They're just two of the many words that capture the spirit of the Lionel Super Chief passenger train. Start with our 2343 Santa Fe F3 diesel locomotive A-B set, then add the Super Chief passenger cars. These are the trains that say *Lionel* to the world.

Our Santa Fe 2343 F3A and F3B diesels stand tall in the warbonnet colors of the Santa Fe. Powered 2343 has dual Pullmor motors, Magne-Traction, and a die-cast frame and trucks. 2343C carries the ultra-realistic Railsounds F3B digital sound system, has die-cast trucks, and features all-new A-B directional lighting. Experience these diesels. They are unquestionably the best Lionel F3s ever.

2343 and 2343C (6-18130)

\$775.00

6464-196

Santa Fe "Super Chief to California" boxcar. The first new-era 6464. (6-19282) \$44.95

6411

Flatcar with Beechcraft Bonanza. The Beechcraft returns! Die-cast flatcar with metal stakes. (6-16969) \$69.95

To match—a stunning Super Chief set. Crafted from brushed aluminum, our cars are miniature works of art. The baggage car has large, opening doors. Passengers ride in *Silver Mesa*, *Silver Sky*, and *Silver Rail*, each with interior illumination, die-cast trucks, and magnetic couplers. Bring the bold colors of the warbonnet to your railroad. The Lionel Super Chief.

Super Chief set (6-19165)

\$499.95

O GAUGE

Champions that refuse to die.

Introducing the mighty Lionel Warhorses.

Captured in all their faded glory, Lionel Warhorses are classic American steam and diesel locomotives in the twilight of their careers. They look road-worn. Their trucks and couplers seem rusty. Even polished siderods glisten with the patina of age.

Lionel Warhorses feature ultra-realistic, hand-applied weathering. No two are alike! And though they run flawlessly, Warhorses sound their age. Just listen—our digital Warhorse Railsounds systems will make you feel the years of the road.

The Lionel 600 Norfolk & Western J 4-8-4 steam locomotive inaugurates the Warhorse series. It features our eight-wheel Pullmor drive with Magne-Traction, die-cast 2671RS tender with the Warhorse Railsounds J

digital sound system, sync smoke and DynaChuff, and more. The J pulls four weathered, sequentially numbered 6446 N&W coal hoppers with coal loads and a weathered 6517 N&W bay-window caboose.

The set includes a Lionel Corporation CAB-1 remote.

Lionel Warhorses. Champions that refuse to die.

Warhorse set 2166RS (6-11909)

O GAUGE

ON THE
LIONEL
HORIZON

There is only one original.

The Lionel 773 Hudson steam locomotive returns.

Built from the original 700E Hudson tools created in 1937 by La Precisa of Italy, our 773 is a Lionel classic. After years of service creating 700Es, 763Es, 773s, and modern-era Hudsons, this historic tooling was scheduled for permanent retirement.

In 1996, The Lionel Corporation saved the 773 tooling. Now fully restored, the Lionel 773 rides on the six-wheel Pullmor drive with new-generation Magne-Traction for more speed, more climb, and more pull. The 773 puffs clean, white smoke in sync with the majestic Railsounds Hudson digital sound system. Even the 2426RS tender is a 1937 original.

Next, add a set of classic Lionel Madison cars, each with interior illumination, die-cast trucks, magnetic couplers, and car names honoring respected legends of The Lionel Corporation.

The Lionel 773 Hudson. There is only one original.

773 Hudson and Madison cars In 1997

LIONEL LEGENDS

A true Lionel Legend.

Announcing our premier steam locomotive for 1996—the Lionel 777 Commodore Vanderbilt streamlined Hudson.

We can't imagine a more appropriate locomotive as our 1996 Lionel Legend. After all, the real-life Commodore Vanderbilt—the first streamlined engine built—is New York Central Hudson J-1e 5344, our classic Lionel 700E scale Hudson of 1937! Originally streamlined in 1934, the Commodore thrilled passengers and onlookers alike as she sped along her Buffalo-to-Chicago route. And though she is now gone, the Commodore Vanderbilt's stylized legacy lives to this day.

The Lionel 777 Commodore Vanderbilt is a monumental addition to your roster. Lionel designers have created the best die-cast tooling *ever*. Look down the length of her massive boiler; you'll see the rippled look of sheet steel. No one gives you realism like Lionel.

Built on a
new-style
is an incre

Another first for Lionel—all-new, scale-length Pullman heavyweight passenger cars. Expertly created from period Pullman materials for the ultimate in authenticity, our new Lionel heavyweights are the perfect complement to the 777 Commodore Vanderbilt. Exquisite detail, brilliant interior illumination, flush-fit opening doors, and much more—all this awaits you with the Lionel Pullman heavyweight set. The assortment includes a baggage, two coaches, and observation car.

Pullman heavyweight set (6-19060) \$399.95

our six-wheel Pullmor drive with Magne-Traction, the Commodore edible performer. The staggering

realism of the Railsounds Hudson digital sound system will make you believe in iron ghosts. The 777 features synchronized smoke and Dyna-Chuff, directional lighting, firebox glow,

an all-new detailed cab interior, brilliant long-life headlamp, and flawless O-54 operation.

The Lionel Legends 777 Commodore Vanderbilt streamlined Hudson. A true Lionel Legend.

**ON THE
LIONEL
HORIZON**

Lionel goes modern in a big way with the 2980 General Electric AC4400 diesel locomotive. Our 2980 takes Lionel in a new direction: big, modern motive power in a big, hi-rail proportioned package.

The AC4400's feature list is impressive: dual Pullmor motors, Command-equipped, Magne-Traction, Railsounds AC4400 digital sound system, TrainMaster Electro-couplers, directional lighting, die-cast frame and fuel tank, and cutting-edge tooling quality.

Now, match this mammoth locomotive with dual Lionel 9875 double-stacks, and you're ready for freight action of the future. There's even an all-new, self-contained end-of-train device that mounts into any Lionel knuckle coupler.

Master railroading's future with tomorrow's locomotive.

Lionel Service.

We know how much your Lionels mean to you. That's why you can trust your valued locomotives, rolling stock, and accessories to Lionel Authorized Service Centers.

Skilled in the latest repair, restoration, and maintenance techniques, Lionel Service Centers care for all Lionels, 1900 to 1996. Plus, they're specially selected to offer only the most knowledgeable, professional, and courteous service.

No matter what the issue, your Lionel Authorized Service Center can solve it.

Finding your local Lionel Authorized Service Center is easy. Just call 1-800-4-LIONEL. Or call 810-949-4100 to speak with Lionel Service at our WASHERS Detroit factory.

Lionel Authorized Service. From the leader in model railroading, The Lionel Corporation.

Working for you.

Lionel Authorized Service Centers do more than just care for your trains. They also have a terrific Lionel Corporation Service Exclusive for 1996.

The Command-equipped 57 switcher leads Service Exclusive X1142. Its die-cast frame carries a rugged Pullmor motor and directional lighting. Behind number 57 are two of our all-new 6486 ore cars, built of die-cast metal for the first time! Pick them up—you can feel the quality.

Sequentially numbered, the 6486s have ore loads, die-cast trucks, and magnetic couplers. Everything wears snappy Lionel Steel decoration.

This summer, visit your Lionel Authorized Service Center to see Service Exclusive X1142 in action. So tough and advanced, you'll know you're running a Lionel.
