

Don't Dawdle, if you want a Doodlebug. Order fast while they last.

The Lionel Collectors Club of America is offering not one, but two different exclusive versions of the popular Lionel Doodlebug self-propelled railcar. The famous Texas Special in red and yellow livery and the Alaskan railroad's historic blue and yellow décor. These historic light passenger and freight duty railcars are a perfect addition to anyone's layout, and they are loaded with features like LionelChief® Plus 2.0, Bluetooth, fan-driven smoke and Railsounds® including the sounds of the gasoline engine. See the listing here for more of the features.

Both versions can be yours for only \$359 each, shipping included. And you can order yours on the LCCA website or by calling the business office during regular business hours. But don't dawdle, quantities are limited and when they are gone, they are gone.

Exclusive LCCA/Lionel Doodlebug features:

- Inside lighting
- Remote control couplers
- 14 ½ inches long
- Minimum curve O31
- Die-cast trucks and pilot
- Railsounds® equipped – Crewtalk/Towercom dialog horn, bell and gasoline engine and background sounds
- Lionel Voice Control
